Subject: B-Line / thanks for your submission

Dear Gavin,

Thank you for your email dated 1 December 2017 and associated attachments relating to the extension of B-Line services to Newport and the preferred option proposal to construct a roundabout at the corner of Neptune and Barrenjoey Roads.

As you are aware, the preferred option presented to the community is an early concept proposal only. Feedback gained from the community at information sessions, B-Line project email, telephone, mail and website will be used to inform the development of a Review of Environmental Factors (REF) expected to be completed late February 2018. This will also include review of the comments you have provided in both your email and attachments. The REF will include a detailed concept design, traffic studies and environmental impact assessments.

As per the planning process, the REF will be placed on public exhibition at which time the community will be asked to provide formal submissions during the public exhibition period. Consultation with key stakeholders, community groups and businesses will occur at this time.

Thank you for your feedback and we will continue to keep you updated on the REF development and planning process.

Regards

Kristina and the B-Line Project Team
