

29 March 2018

Mr. David Frost  
c/o 437 Barrenjoey Road  
Newport, NSW 2106

Dear Mr. D Frost

Thank you for your letter dated 21<sup>st</sup> March 2018.

I am happy to note that your enquiry has been satisfactorily handled by the site manager with regards to the Geotechnical work carried out in early March.

With reference to your questions regarding a proposed discussion, it would be beneficial to schedule a meeting to further discuss the issues raised in your letter.

In 2016, it was discussed that the proposed Northern Beaches service plan involve the extension of the B-Line service north of Mona Vale due to the changes proposed to local services in the area. Reports and analysis was prepared to review potential location options of the extension with regards the ongoing reliability of service options and cost.

It was determined based on the assessment and comparative analysis carried out, that an extension to Newport would provide the best service. This also took into consideration relevant information from Census, Opal and Transport for NSW survey data and was supported by key local stakeholders, Northern Beaches Council and local electorate office.

Detailed information and reports will be provided shortly as requested under the Freedom of Information Act.

I look forward to hearing from you with regards to an appropriate time to meet.

Yours sincerely

A handwritten signature in blue ink, appearing to read "R Miesegeaes", with a long horizontal flourish extending to the right.

**Robert Miesegeaes**  
Project Director  
Northern Beaches B-Line Program
