Dear Mr. Miesegeaes,

Our association has great concern at the two week time frame you have indicated in various correspondence (ref your letter 2/5/2018) for the community to respond to the awaited Review of Environmental Factors (REF).

In October 2017 TfNSW announced they were undertaking the REF with it being completed by late February 2018 (e-mail from K Zarich 6/12/17) and that date has continued to be pushed out with the latest statement 'expected mid-year'. Despite this long gestation (now eight months) you indicate that you are going to allow only fourteen days (14) for public comment which the NRA believe is extremely unreasonable and inappropriate and we request a longer response period be allowed.

We respectfully call for a sixty (60) day period as essential to obtain a realistic community response.

Yours sincerely,

Gavin Butler
President
