Dear Resident or Business Owner

Consultation - Black Spot project - Crescent Road and Beaconsfield Street, Newport

Council has received concerns from residents regarding traffic safety along Crescent Road and Beaconsfield Street, Newport.

The Australian Government Black Spot Program, provides funding for projects that target road locations where crashes are occurring. Council's Transport Network team was recently successful in obtaining funding for sections of road, between No.96 and 147 Crescent Road, and No.13 and 17 Beaconsfield Street. The endorsed proposal includes a number of treatments including raised thresholds, raised medians, upgrade seal to high level non-skid surface, new curve and advisory speed signs, redirective kerb (Elsholz kerb), and street lighting; to address reported head-on and off-road casualty crashes over the nominated 5 year period.

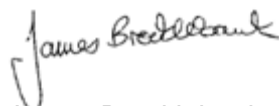

The enclosed concept plan shows the design intent of the proposal and is provided for your information only. The final detailed design may require minor changes to the proposal.

Council invites you to respond to this proposal by scanning the QR code or typing the following URL into your browser <https://northernbeaches-transport-network.app.oneblink.io/forms/14194>. You will then be directed to an on-line form. Please respond by selecting I Support or I Do Not Support by **21 November 2023**.

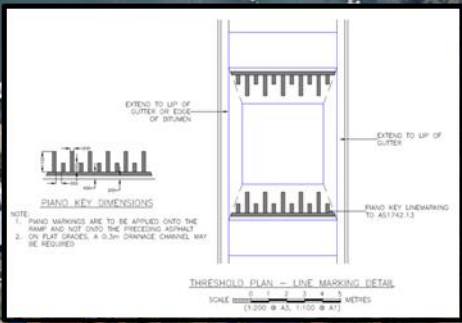

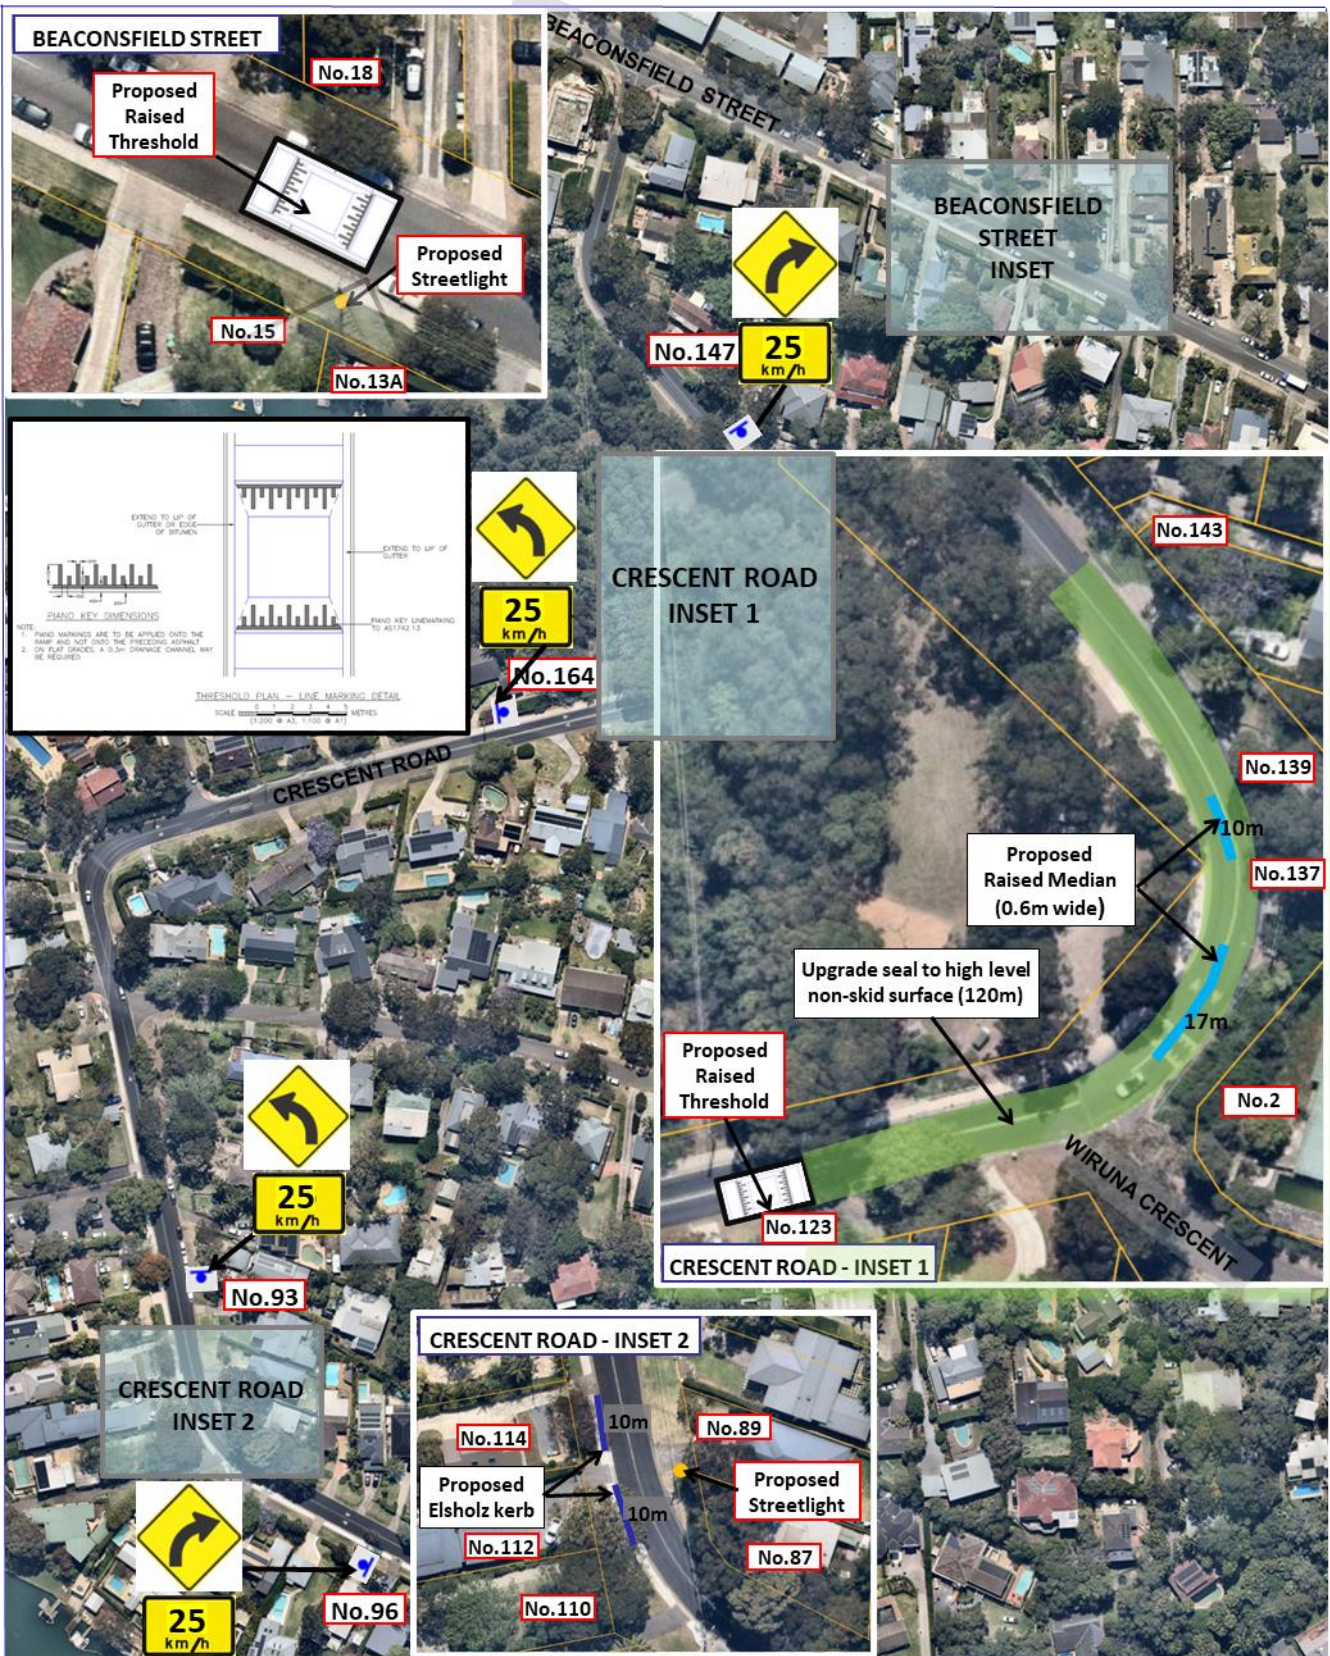

Your response will only be considered if it includes your name and address. Please note that individual responses to submissions will not be given. Once feedback has been reviewed, the matter may then be raised for consideration at the Northern Beaches Council Local Traffic Committee. The Traffic Committee's decision will be available on Council's website one week after the meeting.

Should you require further information regarding this notification, please contact Ricky Kwok, Traffic Engineer, on 02 8495 6815.

Yours faithfully

James Brocklebank
Acting Manager, Transport Network
Northern Beaches Council
